

Install a Trust Router

Due to the depth in which Trust Router integrates with a system, the instructions on how to install a Moonshot IdP are very specific to each OS. We currently have instructions available for various popular Operating Systems.

Linux

- [RHEL / CentOS / SL](#)
- [Debian / Ubuntu / Raspbian](#)
- [Alpine Linux](#)

Mac

- *We do not currently support any version of Mac OS as a host for Trust Router.*

Windows

- *We do not currently support any version of Microsoft Windows as a host for Trust Router.*
